The enthronement was truly a blessing to my family, especially for my marriage. I have noticed that I have become more positive and spiritual since the process was started. If anything, I noticed my wife and I have a deeper and more fulfilling relationship. I have a new fondness of my wife that is neither physical or emotional but rather spiritual. I have no doubt that it has occurred because of the enthronement.

Thanks to all those involved in this ministry as it has truly brought the presence of Jesus, Mary, and the Holy Spirit to our home.
